Let's hear from our students:

\* The course made my English better and I will probably tell my friends about the excellence of the course. I think the most interesting thing here is the methods of teaching of the EAP's teacher.

*Ngoc L P. (Vietnam) - CSU MA of IT*

\* The EAP course has taught me how to study in University. If you want to enter a university to study, you have to learn how to study because I came from China, the teaching way is very different from Australian education. I enjoyed very much the studying atmosphere, teaching way, my teacher John's good personality, such as patience, tolerance, sensitivity and kindness.

*Lankey L. (China) - ACU BA in Nursing*

\* From the beginning I really liked it. The great teacher, John!

*Irene N. (Switzerland)*

\* I think I have learnt a lot of knowledge and 4 aspect skills about university course. This course is very useful for me, because it let me learn how to write essays, how to do the presentation, how to take notes while listening, how to use bibliography and so on. The teacher is excellent. He always patiently explained to me again and again.
